

CURRICULUM VITAE

Ran Libeskind-Hadas

Department of Computer Science
Harvey Mudd College
301 Platt Blvd.
Claremont, CA 91711

Office phone: (909) 621-8976

E-mail: hadas@cs.hmc.edu
URL: www.cs.hmc.edu/~hadas

EDUCATION

Ph.D. Computer Science, University of Illinois at Urbana-Champaign, 1993

Ph.D. thesis (under C. L. Liu): *Reconfiguration of Fault Tolerant VLSI Systems*

M.S. Computer Science, University of Illinois at Urbana-Champaign, 1989

M.S. thesis (under C. L. Liu): *Neural Network Solutions to Two VLSI Design Problems*

B.A. Applied Mathematics, *magna cum laude*, Harvard University, 1987

Undergraduate thesis (under Petros Maragos): *An Application of Iterated Function Systems and Skeletonization to the Modeling of Fractal Images*

RESEARCH INTERESTS

Algorithms for optical networks

Computational biology

AWARDS

Joseph B. Platt Endowed Chair, Harvey Mudd College 2005-2010

Endowed five-year faculty chair for effective teaching

Iris and Howard Critchell Assistant Professorship, Harvey Mudd College, 1996-1999

Endowed junior faculty chair for teaching and mentoring

C. William Gear Outstanding Graduate Student Award, Inaugural Award, 1991

"Awarded annually to a graduate student in the Department of Computer Science at the University of Illinois at Urbana-Champaign on the basis of demonstrated excellence in research and service"

GTE Graduate Fellowship, 1987-1993

ACADEMIC POSITIONS

Acting Department Chair, Department of Computer Science, Harvey Mudd College, July 2006-July 2007

Professor, Department of Computer Science, Harvey Mudd College, July 2003-present

Associate Professor, Department of Computer Science, Harvey Mudd College, July 1999-July 2003

Assistant Professor, Department of Computer Science, Harvey Mudd College, May 1994-July 1999

Assistant Professor, Department of Mathematics, Harvey Mudd College, August 1993-May 1994

VISITING AND ADJUNCT POSITIONS

Visiting Scholar, School of Information Technology, University of Sydney, Australia, August 2007 – July 2008

Member of the Faculty, Doctoral Program in Computational Science, San Diego State University/Claremont Graduate University, 2001 – present

Visiting Researcher, Department of Computer Science, Department of Computer Science, University of Pittsburgh, March – August 2000

Visiting Scientist, Department of Computer Science, Technion - Israel Institute of Technology, August 1999 – March 2000

Visiting Lecturer, Department of Computer Science, University of Illinois at Urbana-Champaign, Summer 1992 and Summer 1993

GRANTS

REU Site: Harvey Mudd REU Site on Computer Systems

National Science Foundation Research Experience for Undergraduates (REU) Grant

Division of Information and Intelligent Systems

(with Dr. Melissa O'Neill as co-PI)

May 2008 - April 2011

\$292,921

Preparing New Scientists and Engineers for the 21st Century

National Science Foundation S-STEM Program

Division of Undergraduate Education
September 2007 - August 2012
(co-PI with Dr. Peter Saeta as primary PI)
\$579,600

REU Site: Harvey Mudd REU Site on Artificial Intelligence, Systems, and Optical Networking
National Science Foundation Research Experience for Undergraduates (REU) Grant
Directorate for Computer and Information Science and Engineering
May 2005 - April 2008
\$286,209

Virtual Topologies for Multicast Communication in WDM Networks
National Science Foundation RUI Grant
Advanced Networking Infrastructure and Research (ANIR) Directorate
June 2002 - May 2005
\$170,500

Efficient Collective Communication in Switch-Based Networks of Workstations
National Science Foundation RUI Grant
Computer-Communications Research (CCR) Directorate
May 1999 - April 2002
\$174,000

Development of a Multimedia Course on the Geometry of Curves and Surfaces with Applications to Computer Aided Geometric Design
Co-Investigator with W. Gu and M. Moody
Mellon Foundation Small Grants Program
May 1997 - September 1997
\$10,350

Scientific Visualization in the Introductory Computer Science and Mathematics Curricula
Principal Investigator with co-investigators R. Bull, B. Keller, M. Moody, and W. Tam
Mellon Foundation Small Grants Program
January 1996 - February 1997
\$16,600

Deadlock-Free Fault Tolerant Routing in Wormhole-Routed Multicomputers
National Science Foundation RUI Grant
Computer-Communications Research (CCR) Directorate
March 1995 - April 1998
\$98,079

RECENT INVITED TALKS

Packing Multiple Knapsacks With a Knife

School of Mathematics and Statistics, University of South Australia, November 2007.

The Complexity of Games and Puzzles

Department of Computer Science, California State University Long Beach, March 2005.

Gossip, Rumors, and Multicast

Department of Computer Science, California State University San Bernardino, March 2004.

Teaching Tips and Tricks

Effective Teaching Program, California Institute of Technology, January 2004.

Multicasting in Heterogeneous Networks of Workstations

2002 Southern California Parallel Processing and Computer Architecture Workshop, University of California at Irvine, March 2002.

Supporting Multicast Communication in WDM Optical Networks

Department of Computer Science, University of California Riverside, December 2001

Gossip, Rumors, and Algorithms

Claremont Colleges Mathematics Colloquium, March 2001 and California State University Long Beach, September 2001

Multicast Algorithms for Heterogeneous Networks of Workstations

Department of Computer Systems Engineering, Ben Gurion University, Israel, December 1999

Efficient Multicast Communication in Wormhole-Routed Networks of Workstations

Department of Electrical Engineering, University of Southern California, April 1999

Parallel Computing and Worms

Department of Mathematics and Computer Science, Boise State University, January 1999

The Computational Sciences at HMC (with L. dePillis) and Computer Graphics at HMC
Project InterMath Meeting, Macalester College, June 1998

Multicast Routing in Networks of Workstations

Department of Electrical Engineering, California Institute of Technology, January 1998

Worms, Algorithms, and Parallel Computers

Claremont Colleges Mathematics Colloquium, October 1997

New Results in Fault Tolerant Wormhole Routing

Department of Computer Science, University of Oregon, March 1996

Fault Tolerant Wormhole Routing in the Mesh

Department of Electrical and Computer Engineering, University of California Irvine, June 1995

PROFESSIONAL ACTIVITIES

Editorial Board: Member of the Editorial Board of the IEEE Transactions on Computers (two terms, 2001-2005)

Program Committees: 2008 International Conference on Computer Communications and Networks, 2008 International Conference on Parallel Processing, 2006 International Conference on Communications and Networking in China, 2004 International Conference on High Performance Computing, 2004 International Conference on Parallel and Distributed Computing and Networks, 2003 International Conference on Parallel Processing, 2003 International Conference on Parallel and Distributed Computing and Systems, 2003 International Conference on High Performance Computing, 2002 International Conference on Computer Communications and Networks, 2002 International Conference on Parallel Processing, 2002 International Conference on Parallel and Distributed Computing and Systems, 2001 International Conference on Computer Communications and Networks, 2001 International Conference on Parallel and Distributed Computing and Systems, 2000 International Conference on Parallel Processing, 2000 International Conference on Parallel and Distributed Computing and Systems, 1995 IEEE International Workshop on Defect and Fault Tolerance in VLSI Systems

Advisory Panels: Member of the CCC (Computing Community Consortium) Interim Council 2006-2007, Panelist for the NSF CISE (Computer and Information Sciences and Engineering) Directorate, Panelist for NSF workshop on "Next Generation Systems," Seattle, Washington, June 1999.

Grant Reviews: NSF MIPS Division (Microelectronic Information Processing Systems)

Education Committees: 2002, 2003, 2004 CRA (Computing Research Association) Undergraduate Award Program Committee

TEACHING ACTIVITIES AT HARVEY MUDD

Courses Taught: Mathematics 55 (*Discrete Mathematics*), Mathematics 73 (*Linear Algebra*), Computer Science 5 and 6 (*Introduction to Computer Science*), Computer Science 60 (*Principles of Computer Science*), Computer Science 140 (*Algorithms*, cross-listed as Mathematics 168), Computer Science 141 (*Advanced Topics in Algorithms*), Computer Science 142

(Complexity Theory, cross-listed as Mathematics 167), Computer Science 155 (*Computer Graphics*)

Clinic Projects: Supervised 13 year-long clinic projects (undergraduate research and development projects sponsored by industrial partners)

Senior Theses: Supervised or co-supervised 16 senior theses in computer science and mathematics (11 from Harvey Mudd, 2 from Scripps, 2 from Pomona, and 1 from Claremont McKenna)

Summer Research Students: Supervised 25 summer research students (22 funded by NSF and 3 funded by HMC)

Ph.D. Dissertation Committees:

- Ms. Honge Wang, doctoral candidate in Electrical and Computer Engineering, University of California at Irvine, Fall 1999
- Mr. Raymond Moberly, doctoral candidate in Computational Science, Joint Doctoral Program of San Diego State University and Claremont Graduate University, 2005–present

COLLEGE SERVICE

Faculty Executive Committee: Three terms. 1997-1998, 1998-2000, 2001-2003

Reappointment, Promotion, and Tenure Committee: Two terms. 2003-2005, 2005-2008 (Chair, 2004-2005)

Claremont Colleges Committee on Religious Activity: 2001-2002

Faculty Ad Hoc Committee on Excellence: 2003 (Chair)

Watson Fellowship Selection Committee: 1995-2000, 2001-present (Chair 1998-1999)

Computing Committee: 1994-1995

Committee on Scholarly Standing: 1995-1996

Committee on Teaching and Learning: 1995-1997

Faculty Liaison to the Trustee Development Committee: 2004-present

Presentation Days Committee: 1994-1996 (Chair)

Bruce J. Nelson Distinguished Speaker Series: Organizer 2004-2005

Advisor, ACM Student Chapter: 2005-present

PUBLICATIONS

Italicized names indicate undergraduate student authors

Book

- [1] R. Libeskind-Hadas, N. Hasan, J. Cong, P. McKinley, and C. L. Liu. *Fault Covering Problems in Reconfigurable VLSI Systems*. Kluwer Academic Publishers, Boston, 1992.

Journal Papers
