

CS 124 Investigation 4 Grading Rubrics

Tasks (2 points)

____ 1pt: Three tasks given.

____ 1pt: Tasks have appropriate scope—deep enough to get at issues with the interface but not too challenging to be impossible in the short timeframe.

Observations (3 points)

____ 1pt: Completeness/organization. Observations from class as well as from three users outside of class.

____ 2pts: Quality and quantity of observations

0 pts: Almost no observations noted, or observations extremely low quality

1 pt: Some observations, moderate quality

2 pts: Many observations for each user. Observations note both obvious and subtle usability issues.

Design Modifications (4 points)

____ 1pt: Significant redesign points identified (or convincing justification why none is necessary). No obvious points missing based on observations.

____ 2pt: Observations clearly support redesign decisions and are well-linked in the analysis. (1 point if not well supported or linked).

____ 1pt: New storyboards present, clearly illustrating the revised design. Design responds to redesign decisions listed above.

Overall (1 point)

____ 1pt: Text is well-written and structured. No wordy sentences or grammatical errors. Points are clear. No superfluous text. No pieces of assignment missing.

Total: _____ out of 10
