

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

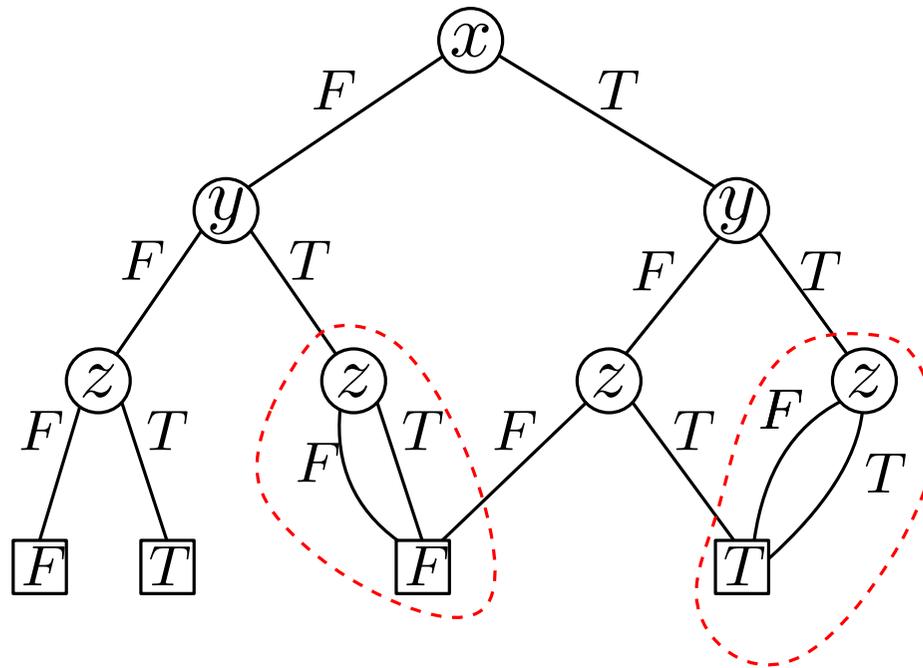

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

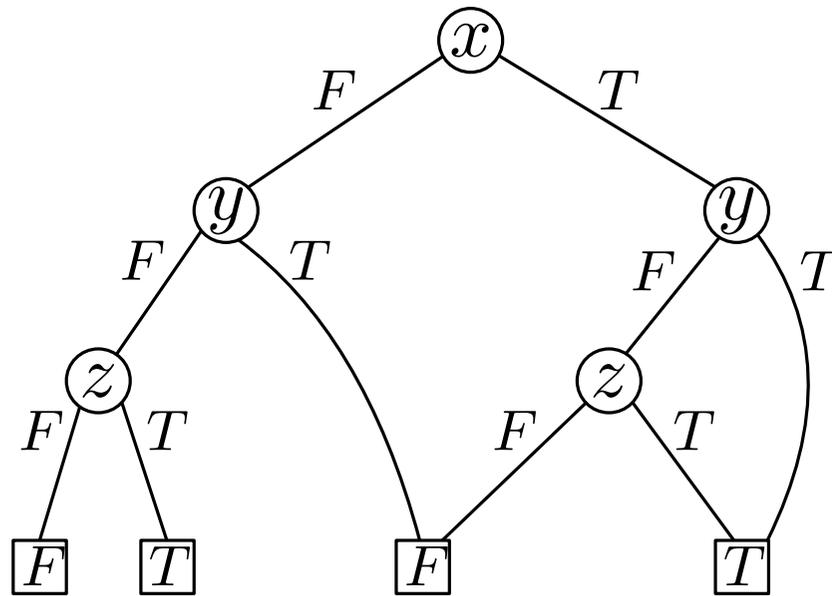

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

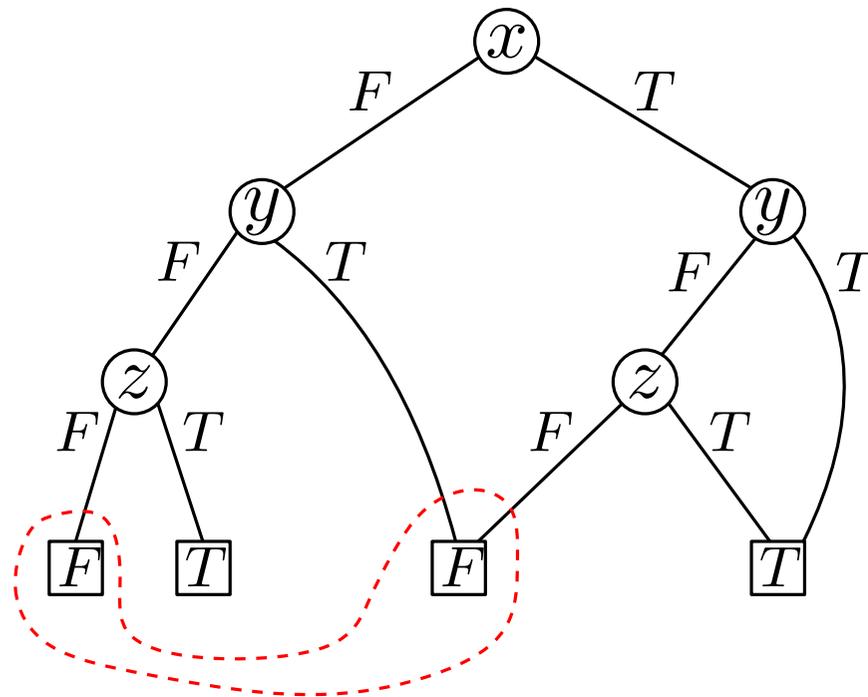

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

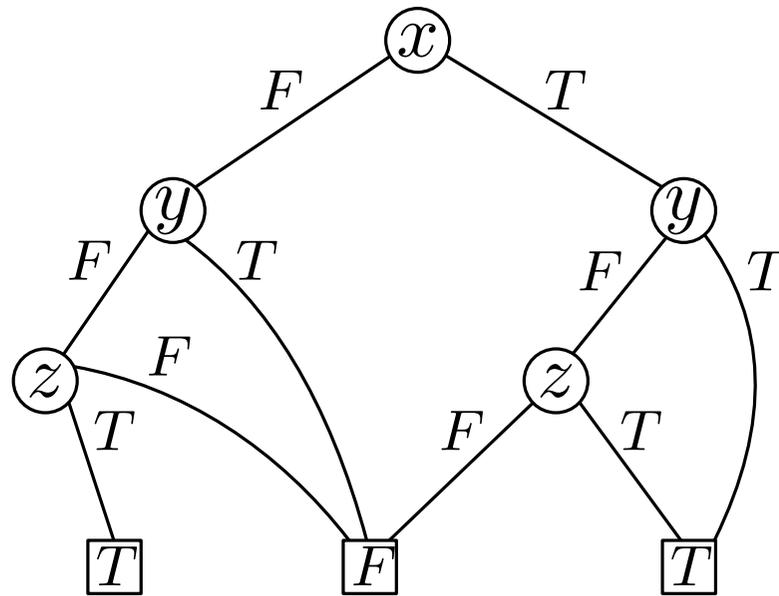

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

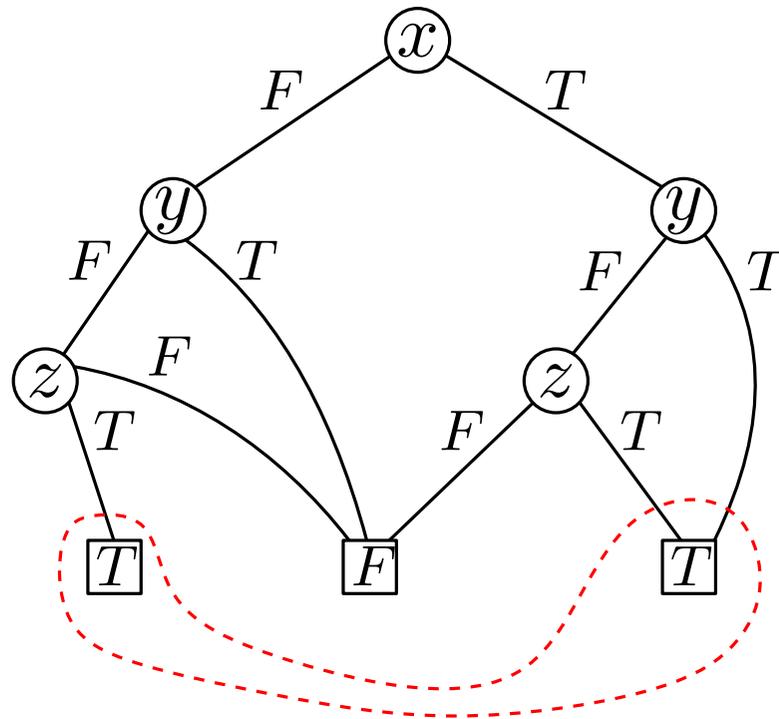

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

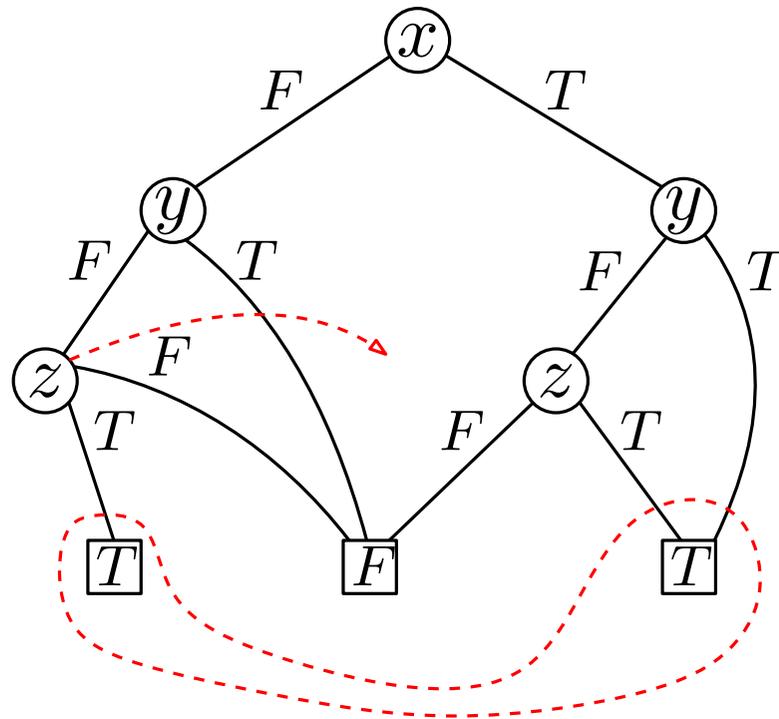

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

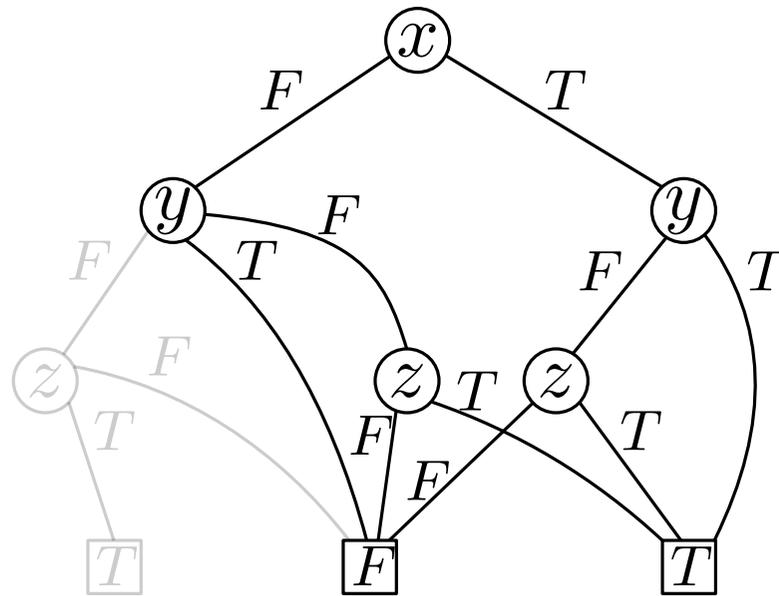

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

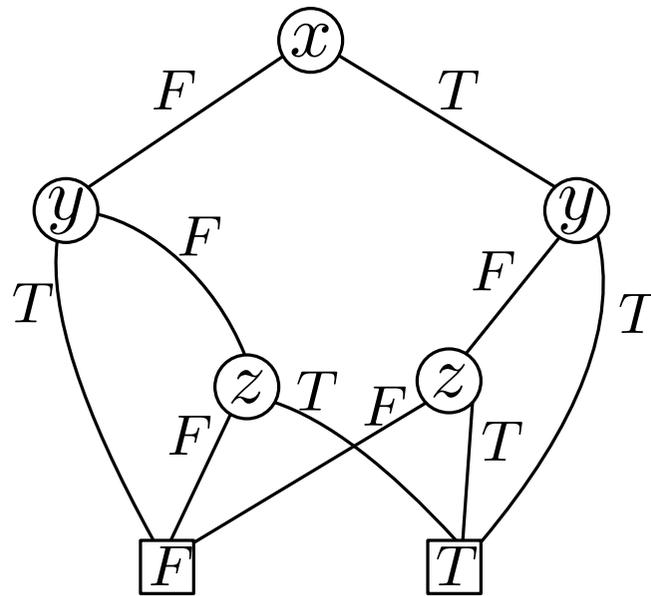

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

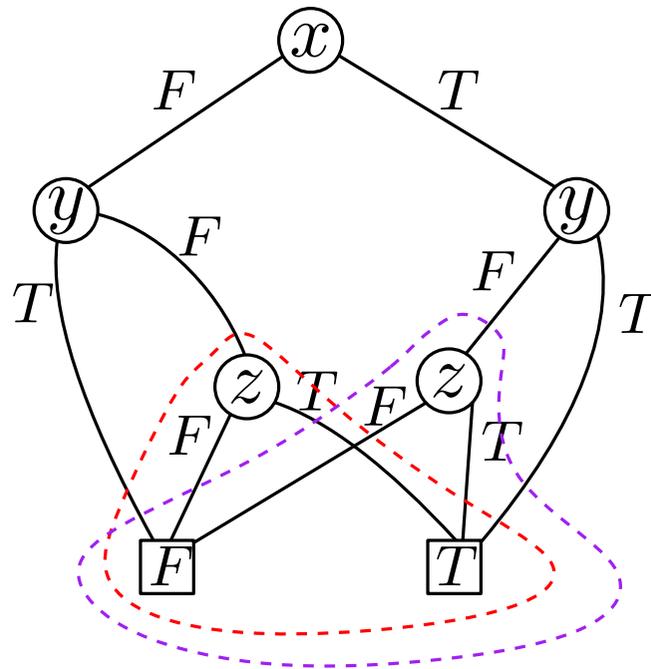

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.

**Example:** Reduce the given BDD for the formula  $(x \wedge y) \vee (\neg y \wedge z)$  to an ROBDD.
