Notes: Using Costumes

Name:_____________________________________

A _______________ changes the way a sprite _______________.

By using costumes, you can continue to control a sprite using the _______________ but you can also change its _______________.

To add costumes for a sprite, click on “_______________” then click “_______________” or “_______________”.

You can import some costumes that have _______________ in Scratch, or you can paint a _______________ one that looks like whatever you want.

Blocks to change a sprite’s costume can be found in the “_______________” tab.

The “_______________” block will make the sprite change to a specific costume you choose.

The “_______________” block will make the sprite change to whatever costume is next in its list of costumes.
