Answer the following questions using Scratch. Draw each script you make.

1. Make a variable and use it in a script to play every note from 60 to 70. Draw it below.

2. Use your variable and use it in a script to play EVERY OTHER note from 50 to 70. Draw it below.

3. Use your variable to make a script that plays every note from 60 to 70 and then back down to 60. Draw it below.
4. Click on the tab to get the “looks” blocks. Use your variable and the “say Hello! For 2 secs” block to make the sprite count down from 10 to 0. Draw it below.
