Want to harness the power of UNIX? Then attend the...

**ACM Unix Course**

The course will cover basic UNIX topics, such as shell redirection, job control, and some basic UNIX commands, proceeding on to more advanced topics as the semester progresses. Students attending should be aware that they will receive no credit for this course (as a benefit there isn't any homework either).

Where: Pryne Lecture Hall  
When: Friday, September 9th  
Time: 3pm to 4:30pm; Lab will be held afterwards.

**Come learn what this whole UNIX thing is about!**

Faculty Are Welcome to Attend
